

0322-002 – Pete's Way Road Extension
City of Warner Robins, Georgia

Addendum #1

March 19, 2025

1. Sewer and Water shall be per City of Warner Robins Specifications which can be found at: <https://www.wrga.gov/o/wrc/page/engineeringn> City of Warner Robins Utility Design Standards link.
2. Construction Documents, dated Revised March 19, 2025, have been updated to show the following:
 - a. Sheet C-0.2, IV., 6. – Sanitary Sewer Pipe shall be per City of Warner Robins specification, SDR 21
 - b. Sheet C-3.8 – Includes missing cross sections thru 37+20
 - c. Sheet C-3.3 - GDOT Std Detail for the Box Culvert or Precast culverts are an acceptable alternative.
 - d. Sheets C-2.5-2.6 – Note added: All Striping Shall be Thermoplastic.
 - e. Sheet C-0.2, VI., Energy Dissipation Summary (Rip-Rap Outlet Protection) ST-B1 has been updated.
 - f. Sheet C-2.5-2.6 R/W Markers are shown and labeled for more clarity.
3. Section 00400 – Proposal Revised 3/19/25
This section has been revised to add the Water and Sewer portion of the project as an Alternate.
4. Any Fill material required may be borrowed from a location onsite as approved by the owner. If required, onsite Stockpile of material is allowed. Location shall be approved by the owner. Ideally, the borrow pit would be adjacent to the existing detention pond if the material is acceptable. Contractor should include any cost associated with grassing and stabilization of any onsite borrow or stockpile areas.
5. Utility license is required.
6. Several factors will be evaluated in selection based on project experience, ability to perform, and price for base bid including any alternatives.

Note: No other Addenda are expected at this time. If any addenda are issued, only planholders will be notified.
